

Microglia

Perivascular macrophages

Subventricular zone radial glia-like cells

Olfactory ensheathing cells

Ependymal cells

Subcommissural organ hypendymal cells

Astrocytes

Schwann cells

Dentate gyrus radial glia-like cells

Oligodendrocytes

Vascular smooth muscle cells

Peripheral sensory peptidergic neurons

Vascular and leptomeningeal cells

Vascular endothelial cells

Satellite glia

Peripheral sensory non-peptidergic neurons

Non-glutamatergic neuroblasts

Oligodendrocyte precursor cells

Cerebellum neurons

Enteric glia

Pericytes

Cholinergic and monoaminergic neurons

Hindbrain neurons

Olfactory inhibitory neurons

Dentate gyrus granule neurons

Enteric neurons

Telencephalon projecting inhibitory neurons

Peptidergic neurons

Telencephalon projecting excitatory neurons

Di- and mesencephalon excitatory neurons

Spinal cord excitatory neurons

Di- and mesencephalon inhibitory neurons

Spinal cord inhibitory neurons

Peripheral sensory neurofilament neurons

Glutamatergic neuroblasts

Telencephalon inhibitory interneurons

Choroid epithelial cells

Sympathetic cholinergic neurons

Sympathetic noradrenergic neurons
